ELECTRONIC BILLING, PRESENTMENT & PAYMENT
The simplest way to convert paper billing to
electronic presentment and receive payment.

What is EBPP?

E-Complish's EBPP system is a simple and reliable e-bill, perfect for transitioning your customers to an online billing platform. With EBPP, your customer will receive an email that their bill is ready to be viewed online or via their phone. The customer can view their bill and make online payments 24/7, all from your company's own branded portal.

- Online enrollment
- View bills and invoices online in HTML or PDF
- "Pay Now" functionality fully-integrated with HostPay and VirtualPay
- Processes transactions in real-time on Level One PCI Compliant Servers
- Accepts payments from personal or business accounts and all major credit cards

The Benefits of EBPP

Fully-integrated with HostPay, MobilePay, Text2Pay, and Virtual Pay, EBPP immediately reduces costs associated with paper and postage while providing an intuitive payment platform. Businesses who have converted to EBPP have seen, on average, a 15% reduction in late or missed payments, with nearly half of all enrolled customers paying their bill the same day the request is emailed. Additionally, studies have shown a dramatic increase of customer online payments once enrolled in EBPP.

- Online enrollment
- View bills and invoices online in HTML or PDF
- "Pay Now" functionality fully-integrated with HostPay and VirtualPay
- Processes transactions in real-time on Level One PCI Compliant Servers
- Accepts payments from personal or business accounts and all major credit cards

Who Should Use It?

E-Complish EBPP is a perfect resource for business that features recurring payment, such as:

- Utility companies
- Telecom and mobile phone industry
- Financial lenders
- Rent-to-own industry
